Future Developments

For the latest information about developments related to Form W-4, such as legislation enacted after it was published, go to www.irs.gov/FormW4.

Purpose of Form

Complete Form W-4 so that your employer can withhold the correct federal income tax from your pay. If too little is withheld, you will generally owe tax when you file your tax return and may owe a penalty. If too much is withheld, you will generally be due a refund. Complete a new Form W-4 when changes to your personal or financial situation would change the entries on the form. For more information on withholding and when you must furnish a new Form W-4, see Pub. 505, Tax Withholding and Estimated Tax.

Exemption from withholding. You may claim exemption from withholding for 2021 if you meet both of the following conditions: you had no federal income tax liability in 2020 and you expect to have no federal income tax liability in 2021. You had no federal income tax liability in 2020 if (1) your total tax on line 24 on your 2020 Form 1040 or 1040-SR is zero (or less than the sum of lines 27, 28, 29, and 30), or (2) you were not required to file a return because your income was below the filing threshold for your correct filing status. If you claim exemption, you will have no income tax withheld from your paycheck and may owe taxes and penalties when you file your 2021 tax return. To claim exemption from withholding, certify that you meet both of the conditions above by writing "Exempt" on Form W-4 in the space below Step 4(c). Then, complete Steps 1(a), 1(b), and 5. Do not complete any other steps. You will need to submit a new Form W-4 by February 15, 2022.

Your privacy. If you prefer to limit information provided in Steps 2 through 4, use the online estimator, which will also increase accuracy.

As an alternative to the estimator: if you have concerns with Step 2(c), you may choose Step 2(b); if you have concerns with Step 4(a), you may enter an additional amount you want withheld per pay period in Step 4(c). If this is the only job in your household, you may instead check the box in Step 2(c), which will increase your withholding and significantly reduce your paycheck (often by thousands of dollars over the year).

When to use the estimator. Consider using the estimator at www.irs.gov/W4App if you:

- Expect to work only part of the year;
- 2. Have dividend or capital gain income, or are subject to additional taxes, such as Additional Medicare Tax;
- 3. Have self-employment income (see below); or
- 4. Prefer the most accurate withholding for multiple job situations.

Self-employment. Generally, you will owe both income and self-employment taxes on any self-employment income you receive separate from the wages you receive as an employee. If you want to pay these taxes through withholding from your wages, use the estimator at www.irs.gov/W4App to figure the amount to have withheld.

Nonresident alien. If you're a nonresident alien, see Notice 1392, Supplemental Form W-4 Instructions for Nonresident Aliens, before completing this form.

Specific Instructions

Step 1(c). Check your anticipated filing status. This will determine the standard deduction and tax rates used to compute your withholding.

Step 2. Use this step if you (1) have more than one job at the same time, or (2) are married filing jointly and you and your spouse both work.

Option (a) most accurately calculates the additional tax you need to have withheld, while option (b) does so with a little less accuracy.

If you (and your spouse) have a total of only two jobs, you may instead check the box in option (c). The box must also be checked on the Form W-4 for the other job. If the box is checked, the standard deduction and tax brackets will be cut in half for each job to calculate withholding. This option is roughly accurate for jobs with similar pay; otherwise, more tax than necessary may be withheld, and this extra amount will be larger the greater the difference in pay is between the two jobs.

Multiple jobs. Complete Steps 3 through 4(b) on only one Form W-4. Withholding will be most accurate if you do this on the Form W-4 for the highest paying job.

Step 3. This step provides instructions for determining the amount of the child tax credit and the credit for other dependents that you may be able to claim when you file your tax return. To qualify for the child tax credit, the child must be under age 17 as of December 31, must be your dependent who generally lives with you for more than half the year, and must have the required social security number. You may be able to claim a credit for other dependents for whom a child tax credit can't be claimed, such as an older child or a qualifying relative. For additional eligibility requirements for these credits, see Pub. 972, Child Tax Credit and Credit for Other Dependents. You can also include other tax credits in this step, such as education tax credits and the foreign tax credit. To do so, add an estimate of the amount for the year to your credits for dependents and enter the total amount in Step 3. Including these credits will increase your paycheck and reduce the amount of any refund you may receive when you file your tax return.

Step 4 (optional).

Step 4(a). Enter in this step the total of your other estimated income for the year, if any. You shouldn't include income from any jobs or self-employment. If you complete Step 4(a), you likely won't have to make estimated tax payments for that income. If you prefer to pay estimated tax rather than having tax on other income withheld from your paycheck, see Form 1040-ES, Estimated Tax for Individuals.

Step 4(b). Enter in this step the amount from the Deductions Worksheet, line 5, if you expect to claim deductions other than the basic standard deduction on your 2021 tax return and want to reduce your withholding to account for these deductions. This includes both itemized deductions and other deductions such as for student loan interest and IRAs.

Step 4(c). Enter in this step any additional tax you want withheld from your pay **each pay period**, including any amounts from the Multiple Jobs Worksheet, line 4. Entering an amount here will reduce your paycheck and will either increase your refund or reduce any amount of tax that you owe.

Form W-4 (2021)

Step 2(b) – Multiple Jobs Worksheet (Keep for your records.)

If you choose the option in Step 2(b) on Form W-4, complete this worksheet (which calculates the total extra tax for all jobs) on **only ONE** Form W-4. Withholding will be most accurate if you complete the worksheet and enter the result on the Form W-4 for the highest paying job.

Note: If more than one job has annual wages of more than \$120,000 or there are more than three jobs, see Pub. 505 for additional tables; or, you can use the online withholding estimator at www.irs.gov/W4App.

| 1 | Two jobs. If you have two jobs or you're married filing jointly and you and your spouse each have one job, find the amount from the appropriate table on page 4. Using the "Higher Paying Job" row and the "Lower Paying Job" column, find the value at the intersection of the two household salaries and enter that value on line 1. Then, skip to line 3 | 1 | \$ |

BASIC INSTRUCTIONS

- Line 1 Enter your name, address and social security number in the spaces provided.
- Line 2 Check the box that indicates your filing status. If you checked Box 1 (Single) or Box 3 (Married/Civil Union Partner Separate) you will be withheld at Rate A.

Note: If you have checked Box 2 (Married/Civil Union Couple Joint), Box 4 (Head of Household) or Box 5 (Qualifying Widow(er)/Surviving Civil Union Partner) and either your spouse/civil union partner works or you have more than one job or more than one source of income and the combined total of all wages is greater than \$50,000, see instruction A below. If you do not complete Line 3, you will be withheld at Rate B.

- Line 3 If you have chosen to use the wage chart below, enter the appropriate letter.
- Line 4 Enter the number of allowances you are claiming. Entering a number on this line will decrease the amount of withholding and could result in an underpayment on your return.
- Line 5 Enter the amount of additional withholdings you want deducted from each pay.
- Line 6 Enter "EXEMPT" to indicate that you are exempt from New Jersey Gross Income Tax Withholdings, if you meet one of the following conditions:
 - Your filing status is SINGLE or MARRIED/CIVIL UNION PARTNER SEPARATE and your wages plus your taxable nonwage income will be \$10,000 or less for the current year.
 - Your filing status is MARRIED/CIVIL UNION COUPLE JOINT, and your wages combined with your spouse's/civil union partner's wages plus your taxable non wage income will be \$20,000 or less for the current year.
 - Your filing status is HEAD OF HOUSEHOLD or QUALIFYING WIDOW(ER)/SURVIVING CIVIL UNION PARTNER and your
 wages plus your taxable nonwage income will be \$20,000 or less for the current year.

Your exemption is good for **ONE** year only. You must complete and submit a form each year certifying you have no New Jersey Gross Income Tax liability and claim exemption from withholding. If you have questions about eligibility, filing status, withholding rates, etc. when completing this form, call the Division of Taxation's Customer Service Center at 609-292-6400.

Instruction A - Wage Chart

This chart is designed to increase withholdings on your wages, if these wages will be taxed at a higher rate due to inclusion of other wages or income on your NJ-1040 return. It is not intended to provide withholding for other income or wages. If you need additional withholdings for other income or wages use Line 5 on the NJ-W4. This Wage Chart applies to taxpayers who are married/civil union couple filing jointly, heads of households or qualifying widow(er)/surviving civil union partner. Single individuals or married/civil union partners filing separate returns do not need to use this chart. If you have indicated filing status #2, 4 or 5 on the above NJ-W4 and your taxable income is greater than \$50,000, you should strongly consider using the Wage Chart. (See the Rate Tables on the reverse side to estimate your withholding amount).

HOW TO USE THE CHART

- 1) Find the amount of your wages in the left-hand column.
- Find the amount of the total for all other wages (including your spouse's/civil union partner's wages) along the top row.
- 3) Follow along the row that contains your wages until you come to the column that contains the other wages.
- 4) This meeting point indicates the Withholding Table that best reflects your income situation.
- 5) If you have chosen this method, enter the "letter" of the withholding rate table on Line 3 of the NJ-W4.

NOTE: If your income situation substantially increases (or decreases) in the future, you should resubmit a revised NJ-W4 to your employer.

RATE TABLES FOR WAGE CHART

The rate tables listed below correspond to the letters in the Wage Chart on the front page. Use these to estimate the amount of withholding that will occur if you choose to use the wage chart. Compare this to your estimated income tax liability for your New Jersey Income Tax return to see if this is the correct amount of withholding that you should have.
